The CFL Story

Our story began in 1999 when we operated as a small buying office known as DH International. Acting as a mediator between buyers and manufacturers taught us crucial experience in the garments and apparel industry. We started with a handful of employees in a small rented office, and now we have worked our way up to employing over 1300 workers in our very own factory premises.

Why CFL?

Having gained valuable knowledge from working as a mediator between buyers and manufacturers, we understood that only the best manufacturers make it in the business, and the best is determined by two qualities: Cloth, and Fashion. We found that most clients prioritized quality, longevity, and comfort of the 'Cloth', and kept coming back for the bold 'Fashion' statement the garment made. When we were ready to get into manufacturing, we decided that "The Cloth and Fashion Ltd" would be a fitting name and our ultimate aim!

Mission

We strive to offer our customers the lowest possible prices, the best available material, and the utmost convenience.

Vision

To be the world's best customer-centric apparel manufacturer while increasing sustainability and reducing the carbon footprint we have on our planet.

Over the years our garments have gained noteworthy status from most of our clients in the international market for their performance and quality. One fact that separates us from other manufacturers and puts us in a lofty altitude is our team of experienced merchandisers who are accustomed to communicating and dealing with clients from any corner of the world.

Our Values

We are committed to:

- adopting high standards of ethics in all of our business actions and practices.
- providing our clients with high quality services, tailor-made to their needs and expectations.
- guaranteeing highly competitive prices and quality to our clients.
- engaging highly skilled personnel supported by an effective organizational structure.
- implementing equal opportunities and environmentally friendly policies.

The Factory

Both our office and factory premises are located in Rajaghat, Rajfulbaria, Savar, Dhaka, Bangladesh. Only a short 15km drive from the National Parliament Building. The factory is housed in its own purpose built building which is fully compliant in terms of electrical and fire safety.

We take safety seriously so our factory building is equipped with a state of the art fire hydrant system that is UL certified. At this moment we are operating on 110,000 sqft of floor space.

Facilities

- Stand-by Power Generator that runs entire factory.
- Fire protection systems with hydrant line in each floor with UL certified detection and alarm system.
- Underground water reservoir.
- First aid boxes throughout the factory floor.
- Sufficient toilets for male and female workers in separate areas.
- Energy saving lights.
- Adequate ventilation by ceiling fans, exhaust fans and large windows.

Production Line

Environmental Policy

As a responsible manufacturing entity, CFL is committed to protecting the environment in compliance with the environmental laws and the practices of the communities where we operate and serve. We attempt to minimize any adverse impacts on air, water and land by means of pollution prevention and energy and water conservation. By doing so, we achieve cost savings, an increased operational efficiency, improved quality of products and services and ultimately, a safe environment for the community as a whole and a healthy workplace for our workers.
